PROFESSIONAL SUMMARY

Full Stack & Mobile App Developer with 9+ months of professional experience building and publishing 3 React Native apps on Google Play Store, backed by 2+ years of manual coding fundamentals in JavaScript, TypeScript, React/Next.js, and Node.js. Skilled in MERN, PERN, React Native, and Expo, with proven ability to deliver end-to-end solutions from concept to deployment — including ERP systems, AI-powered platforms, real-time chat applications, and multi-role mobile apps. Ranked 1st out of 20,000+ students in Saylani Mass IT Training's Modern Web Application Development batch (Batch-16, 400 finalists). Experienced with payment gateway integration, multilingual (i18n) applications, and AI tool-assisted development (Gemini, OpenAI).

TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap

UI/Styling: Material UI, Mantine UI, Ant Design, Shadcn/ui, Framer Motion, Figma, Responsive Design

Backend: Node.js, Express.js, REST API, Socket.io, Firebase

Databases: MongoDB (Mongoose), PostgreSQL (pgAdmin), Firebase Firestore

Mobile Development: React Native CLI, Expo, Android Studio, Google Play Console, React Native Maps, Push Notifications

AI & Productivity Tools: Cursor, GitHub Copilot, Claude, ChatGPT, Google Gemini, OpenAI, DeepSeek, Windsurf

Tools & Integration: Git, GitHub, VS Code, Postman, Vercel, i18n, Payment Gateway Integration (Stripe, Yaad)

PROFESSIONAL EXPERIENCE

Full Stack & Mobile App Developer — AppMash, Karachi

9 Months (2025 – Present)

- Published 3 React Native apps on Google Play Store: Customer App (food/grocery/ride booking with real-time tracking), Restaurant Partner App (order/menu management with Kanban boards), and Driver App (delivery/ride fulfillment with real-time navigation)
- Built enterprise-level full stack applications using MERN/PERN stacks, including an ERP system (Barakah) and AI-powered platforms (Helplytics, Clinic Management System)
- Integrated AI features into production apps using Google Gemini and OpenAI, including AI-powered prescription explanations and intelligent customer support workflows
- Integrated payment gateways (Stripe, Yaad) and built PDF report generation for invoices, prescriptions, and business analytics

- Developed a real-time chat application (TalkBridge) with one-to-one messaging, group chats, and Socket.io integration
- Implemented push notifications, phone authentication, and real-time location tracking using Firebase Cloud Messaging and Geolocation APIs
- Built multi-language support (English/Urdu/Hebrew/Arabic/Roman English) using i18n for a global user base
- Designed and built RESTful APIs, Firebase backends, and MongoDB/PostgreSQL database schemas for scalable applications
- Managed databases across MongoDB (Mongoose), PostgreSQL (pgAdmin), and Firebase Firestore
- Leveraged AI-assisted development tools (Cursor, GitHub Copilot, Claude, ChatGPT, Gemini) to accelerate delivery, backed by strong manual coding fundamentals
- Managed the full app lifecycle on Google Play Console, including updates, versioning, and store listing optimization

KEY PROJECTS

RoadHelper — Multi-Role Mobile App Suite | React Native CLI, TypeScript, Firebase, Redux Toolkit

Three published Google Play Store apps (Customer, Restaurant Partner, Driver) with real-time sync, push notifications, phone authentication, and i18n support (EN/HE/AR).

SafeCircle PK — Family Safety App | React Native CLI, Firebase, Google Maps, Zustand

GPS location-sharing and safety app with geofenced safe zones, SOS alerts, and background location tracking.

Barakah — ERP Platform | Next.js, React, Node.js, MongoDB, Tailwind CSS

Enterprise Resource Planning platform with inventory management, billing, HR operations, and business analytics.

Helplytics — Helpdesk & Analytics Platform | Next.js 16, React 19, Redux Toolkit, TypeScript

AI-powered helpdesk platform with ticket management, leaderboards, and intelligent support workflows.

AI Clinic Management System | Next.js 16, Firebase, Gemini AI, pdf-lib

Healthcare platform with role-based dashboards, appointment scheduling, and AI-powered digital prescriptions.

CoreStock — Admin & User Panels | Next.js, TypeScript, Mantine UI, Redux

Enterprise inventory and warehouse management dashboards with role-based permissions and real-time reporting.

Additional shipped projects: PatternIntel (AI Health Analyzer), Road Helper Web App, AppMash Website, Student Portal, and 5+ more — full portfolio at github.com/syedmuhammadali-dev

EDUCATION

Associate Degree Program (ADP), Software Engineering — Ilma University (2025 – Present)

Intermediate (Pre-Engineering) — Government Degree Boys College (2022 – 2024)

Matriculation, Computer Science — Kamran Public School (A-Grade)

CERTIFICATIONS & TRAINING

- 1st Position — Saylani Mass IT Training, Modern Web Application Development, Batch-16 (2026) — Credential: SMIT/2026/WMA/B16/367786

- Full Stack / MERN Stack Development — Saylani SMIT (2025 – Present)

- Frontend Development — Farooq-e-Azam Institute (2024–2025)

- WordPress Development — Fixit Institute (2024)

- JavaScript Essentials 1, CSS Essentials, HTML Essentials — Cisco (2025)

- Introduction to Modern AI — Cisco (2026)

- Fundamentals of Agile Project Management — Project Management Institute (2025)

- Fundamentals of Predictive Project Management — Project Management Institute (2025)
